NEW! STEP 3 LENGTH GOALS extensions perfecter

Protects both the natural hair and extension hair from daily wear and tear as well as damage from heat and styling tools. This one-of-a-kind formula moisturizes and revives hair with two times the reviving agents, while reducing detangling and styling time. It also protects hair from heat up to 450 degrees—another important benefit for extension wearers who tend to be frequent users of thermal tools. 200ml
